

Hold your horses, Bob!

BAND STORY

"[b]HOLD YOUR HORSES BOB[/b] is a one-man-collective consisting of the melody maker Pete Smith with a little help from his friends. Formed in 2007 they went into the studio to record what eventually became the debut single "DO WHAT YOU LIKE (but don't do it here)". Based in the surroundings of Royal Södermalm, Stockholm, [b]HYHB[/b] is dedicated to making music in the studio and acoustic gigs at small local venues. [b]HYHB[/b] is like a resemblance of people with the love of music as a mutual friend. Like the Flying Burrito Brothers some decades ago. [b]HYHB[/b] is not signed to any big company. HYHB is not signed to any company at all. It's independent music done for independent reasons. If you like the music, you're welcome to

<http://www.holdyourhorsesbob.com> for free downloads. However, if you value a free and independent music scene, as opposed to a market created and run by the major companies, you pay for the downloads. Ride on, and let the music do the talking!"
