

The Daniel Iorio Group

BAND STORY

"D.I.G are a four member outfit consisting of some of Montreal's top live & session musicians, joining forces with indie singer/songwriter Daniel Iorio. Their first album together, "Hike", is a self-produced effort boasting 12 melodious tracks, chronicling, rather whimsically, the trials and tribulations many artists endure to do what they love. Coupled with some themes touching on Buddhist tenets, existentialism, death, self-doubt, fear, metaphysics, realization & awareness, "Hike" manages to present itself as unassuming and without presumption. "Hike" is now available on iTunes, Rhapsody, Amazon, cdbaby.com and other online stores."
